

PLANTING PLAN

Clay Soil Heroes

Heavy clay defeats a lot of plants, but these heroes cope with its poor drainage and seasonal wet, turning a problem soil into a thriving garden.

How to use this plan

1. Mark out your bed and set plants out (still in pots) using the spacing column.
2. Place taller and wider plants to the back or centre, lower plants to the front or edges.
3. Group by light and water needs so each plant gets the right conditions.
4. Plant, mulch, water in well — then tick each plant off as you go.
