

PLANTING PLAN

Coastal Privacy Screen

Coastal gardens need screens that cope with salt-laden wind. These plants form dense, private boundaries without burning off at the first sea breeze.

How to use this plan

1. Mark out your bed and set plants out (still in pots) using the spacing column.
2. Place taller and wider plants to the back or centre, lower plants to the front or edges.
3. Group by light and water needs so each plant gets the right conditions.
4. Plant, mulch, water in well — then tick each plant off as you go.
