

PLANTING PLAN

Fire-Retardant Native Buffer

In bushfire country, the right planting buys time. These bushfire-resilient natives form a lower-fuel green buffer suited to BAL-rated gardens.

Plant list (13 plants)

How to use this plan

1. Mark out your bed and set plants out (still in pots) using the spacing column.
2. Place taller and wider plants to the back or centre, lower plants to the front or edges.
3. Group by light and water needs so each plant gets the right conditions.
4. Plant, mulch, water in well — then tick each plant off as you go.
