

PLANTING PLAN

Frost-Hardy Screening Shrubs

Frost knocks out tender screens fast. These shrubs are genuinely cold-hardy, evergreen and dense — reliable privacy through the coldest winters.

How to use this plan

1. Mark out your bed and set plants out (still in pots) using the spacing column.
2. Place taller and wider plants to the back or centre, lower plants to the front or edges.
3. Group by light and water needs so each plant gets the right conditions.
4. Plant, mulch, water in well — then tick each plant off as you go.
