

PLANTING PLAN

# Salt-Tolerant Coastal Garden

Seaside gardens are tough on plants. This salt-tolerant selection laughs off coastal wind and spray to keep looking good by the beach.

## Plant list (198 plants)

## How to use this plan

1. Mark out your bed and set plants out (still in pots) using the spacing column.
2. Place taller and wider plants to the back or centre, lower plants to the front or edges.
3. Group by light and water needs so each plant gets the right conditions.
4. Plant, mulch, water in well — then tick each plant off as you go.
